### **DETAILED ACTION**

1. As discussed in the interview summary, dated January 21, 2005, the restriction requirement mailed January 19, 2005, is hereby withdrawn and a new restriction requirement based on in the preliminary amendment filed Nov. 34, 2005 follows.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 11-16, 21 and 22, drawn to method of producing a jointless and porous granular covering, classified in class 156, subclass 60.
  - II. Claims 17-20 and 23, drawn to granular covering, classified in class 428, subclass 143.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by a materially different process such as chemical embossing.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and have acquired a separate status in the art because of their recognized divergent subject matter and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1772

5. A telephone call was made to William H Legsdon on January 10, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

*Conclusion*

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alicia Chevalier whose telephone number is (571) 272-1490. The examiner can normally be reached on Monday through Friday from 8:00 am to 4:00 pm.
